

Sound Library Checklist for Creative Teams

Does your team have the resources it needs to quickly find and use the right sounds for any project?

Use the checklist below to see where your current setup stacks up. Teams who are using sound to bring branding and projects to the next level will typically score 8 or higher.

✔ Sound Effects

- Minimum 100k files
- Coverage across all categories
- Extra coverage in any specialized categories you use the most
- Uniform metadata optimized with Universal Category System
- Recordings from reputable sources and sound artists
- Ongoing updates (at least yearly)
- Licensing for all users

✔ Workflow

- Sound library search software (desktop app)
 - Browser-based sound library (web app)
 - Direct integration with DAW or editing app (via Spot-to-Timeline or Drag-and-Drop)
 - Create and share collections/playlists
 - User management for multiple team members
